

**AND THE WINNER OF THE
PWNA BEST RIG IS...**

**TIM NORD
POWER WASH SERVICES**

BLOOMINGTON, IL

When Tim Nord shows up for work, people pay attention. After all, not many PW contractors drive an 84 converted GMC fire truck!

Tim's rig was voted "Best of Show" at the PWNA Fall Technical Seminar that was held in Chicago from October 8-10. Tim is the owner of Power Wash Services in Bloomington, IL.

In addition to depending on the truck for his livelihood, Tim is generous in offering his truck for the good of the community. Not only does it offer a unique twist to the events he participates in, but it is good for business!

"We used the truck in the local Memorial Day parade this year," Tim says. "Also, the Christmas parade where we helped the Kiwanis food drive and loaded the food on the truck during the parade. This makes for great advertising and only cost our time!"

Other pictures show the truck in its original incarnation as a fire truck and during the painting process. (The original 84 GMC cab and chassis is being used as a dump truck.) The Painter who painted the truck was Rob Harding from Bloomington, IL.

Keeping with the "water under pressure" theme, Tim had the logo cut from stainless steel using a waterjet.

Cleaner Times congratulates Tim, his company, and his crew for winning the "PWNA Best Rig" contest and for representing the industry in such a positive way in his community! *cr*
