

**EnviroSpec Introduces HOOD PRO, Formulated for Restaurant Exhaust Hoods**

EnviroSpec's HOOD PRO product is the non-caustic workhorse of the professional exhaust hood cleaning industry. Known for its consistent high performance, this grease dissolving formula is being used by professionals who know and understand the disadvantages of using sodium or potassium hydroxide products. HOOD PRO comes mainly from a wide variety of special surfactants not commonly found in the detergent industry. Coupled with a unique "builder" base and SuperFlo Polymer™, HOODPRO exhibits cleaning characteristics for today's specialized contractor. HOOD PRO will respond to difficult cleaning projects and provide an environment that is much safer to humans and less damaging to the surface.

**Steel Eagle's New Steel Frame Reel**

Steel Eagle's new Steel Frame Reels have been designed using laser cut metal to form the A frame that provide stability and strength for mounting to portable compressors, power washers, lawn care trailers, etc. The frames and reels are painted with a durable powder-coat paint. A heavy duty spring lock pin, greasable pillow blocks, and an adjustable brake are part of the design. The reel is designed with ½-in. Schedule 80 Plumbing and rated at 4000 psi maximum. To ensure dependability the new steel reels come standard with the Super-Swivel® Union. Three models are currently available—150-ft, 200-ft, and 300-ft capacity of ¾-in. hose.
